02	Higher Secondary	2019	WBCHSE	RSMHS	500	87%
03	UG Honours	2028	KNU	RIIT	Current	

Additional Qualification

SL. No	Name of Examination	Passing Year	Board / University	Institute Name	Total Marks	Percentage (%)
01	CITA	2020	YCTC	RYCTC	85	65%
02	DITA	2021	YCTC	RYCTC	87	68%
03	CFAS	2022	YCTC	RYCTC	95	87%
04	ITI	2020	NCVT	RPITI	3000	98%

Skills:

❖ Programming Language:

C Programming Language
C++ Programming Language
Java Programming Language
Python Programming Language

❖ Web Development:

HTML
CSS
Tailwind CSS
JavaScript

❖ Back – End Language:

Node JS
React
Express JS
PHP
Python

❖ Database Management Language:

MY SQL
PostgreSQL

Hobbies:

- IT Technology
- Cricket
- Football
- Badminton

Strength:

- Strong communication skills
 - Self-motivated and positive attitude
 - Honest and trustworthy person
 - Quick learner and adaptable
 - Good problem-solving ability
-

Our Collage Project

1. Grocery Shop Management System:

(Front-end & Back-end Development Project)

Developed a complete grocery shop management application to handle daily shop operations efficiently.

Details:

Designed user-friendly front-end interface for billing and product entry

Implemented back-end database for storing product, customer, and sales data

Integrated GST calculation and automatic invoice generation

Managed stock update system after every purchase

Improved overall shop management efficiency and reduced manual work

2. Student Management System

(Database Management System Project)

Developed a system to manage student academic records in a structured and efficient way.

Details:

Created interface for student registration and login system

Managed student details like attendance, marks, and personal information

Implemented database queries for data insertion, update, and retrieval

Generated result reports based on stored academic data

Ensured secure data handling using validation techniques

3. Library Management System:

(Full Stack Academic Project)

Built a system to automate library operations such as book issue and return management.

Details:

Designed front-end for book search, issue, and return functions

Developed back-end database for books and member records

Implemented fine calculation system for late returns

Maintained real-time book availability status

Improved library record management and reduced manual tracking

4. Online Banking System (Demo Project)

(Web-Based Application Project)

Developed a simulated banking system to demonstrate core banking operations.

Details:

Created secure login and user authentication system

Implemented deposit, withdrawal, and balance checking features

Maintained transaction history using database integration

Designed simple and responsive user interface

Focused on basic security and data validation

5. Hospital Management System

(Information Management System Project)

Developed a system to manage hospital operations and patient records digitally.

Details:

Built modules for patient registration and doctor management
Scheduled appointment booking system for patients
Stored medical records and treatment history in database
Generated billing system for hospital services
Improved efficiency in patient data handling and hospital workflow
